

£150 MINIMUM TRADE-IN

PC-Part Exchange.com

Thanks to HP and PC Part Exchange, you can now choose any HP products that are part of our trade-in offer and exchange your old computer for a minimum of £150* cash regardless of the original manufacturer.

**Subject to terms and conditions*

The Big Print

For your old computer to qualify for HP's minimum part exchange value it must be operational and include the following: Desktops: Base Unit, Monitor, Keyboard, Mouse, Kettle Leads & Restore CDs. Laptops: Working Battery, Power Supply with Mains Leads & Restore CDs. If any of these items are not present we will offer a current market valuation.

We'll even contribute £10 towards your postage, so you don't have to worry about the cost of getting your old computer to us. Once we've received it, we'll wipe any existing data and recycle it for you. The process is completely secure and helps us all to do our bit for the environment.

Please note we must receive your trade in within 21 days of purchasing your new computer.

The Small Print

This is an end-user offer administered by PC Part Exchange on behalf of Hewlett-Packard and full terms and conditions can be found here:
